ABOUT ME +

I have been working as a developer for a few years now and I love finding unique solutions to difficult problems. I'm always looking for ways to learn and expand my skill set and am obsessed with designing and developing awesome products! I'm passionate front end development but am also extremely interested in full stack.

SOFT SKILLS +

TIME MANAGEMENT

SELF-MOTIVATED

CREATIVITY

PROBLEM SOLVING

RELIABLE

INTERESTS +

PHOTOGRAPHY   GAMING   ROCK CLIMBING

WORK EXPERIENCES +

WEB/APP DEVELOPER
(2018 - PRESENT)

Alliance Benefit Group
Rocky Mountain - Midvale
- Rebuilt our advisor API by moving it to an external API server, while pulling custom data from our Oracle Database. Simplified SQL queries allowing ease of use for the development team.
- Built a mobile app for our advisors using Angular 8 and Ionic 5, resulting in retainment and addition of new advisors.
- Created a customized PWA onboarding portal for companies starting a 401(k) plan. Saved weeks of manual input and caused an incentive to onboard new plans.
- Increased website users 10% by completely rebuilding website for our ABG consultants using Drupal.
- Maintained and updated our core website increasing mobile users by 8%.

WEB DEVELOPER INTERN
(2018 - 2019)

Alliance Benefit Group
Rocky Mountain - Midvale
- Build desktop advisor portal for all plan advisors.
- Work closely with marketing to create social media graphics and website blog posts.
- Perform quarterly website updates and customizations
- Design and maintain 60 custom email signatures.

SALES ASSOCIATE
(2017 - 2018)

Osmond Designs - Lehi & Orem
- Sell an average of $1500 daily.
- Assist in floor design by moving and decorating rooms.
- Create and track 60 custom orders.

EDUCATION +

WEB DESIGN & DEVELOPMENT

Emphasis in Web & App Development

(2016 - PRESENT)

Utah Valley University (UVU)
- Graduated Spring 2020
- Developed a mobile app with React Native
- Awarded 2 full tuition scholarships
- Developed a website with Wordpress
- Developed a front end interface with React which consumed RESTful API calls and reached out to Firebase
- Developed full stack app using GraphQL Prisma, NodeJs, Express, MongoDB, Mongoose, and VueJS
